

Medical-Grade Cleaning & Compliance Engineering

We offer on-site medical establishment cleaning, commercial building cleaning, building maintenance and engineering services, and more all meeting our high standards of health and advanced technology.

As a team, we operate all across northern Nevada and have the superior level of professionalism needed to achieve high standards (and scores) required for any facility in our community.

Facility Compliance Maintenance & Engineering

Your facility needs care and your compliances must be met, Spruce is here to ensure that happens. While you focus on your business, our professional building engineers are behind the scenes making sure you, your staff, and your visitors are surrounded by a safe, clean, and controlled environment to make that possible.
